

Project 101005-AFGHANISTAN-SCANNERS
Questions and Answers
July 8, 2010

1. *Can you please clarify the dimensions of the entry and exit roller tables or conveyor belts?*

Answer: The width and height of the entry and exit roller tables or conveyor belts should correspond with the width and height of the actual scanning tunnel. The length of both tables/belts should be a minimum of thirty inches/seventy-six centimetres (30" / 76cm).
